- Advance Information Availability ..... Juan Murillo, LTM
- Environmental Status ..... Jan Grenfell, DOTD
- Project Accessibility ..... Juan Murillo, LTM
- Construction Schedule ..... Juan Murillo, LTM
- Question and Answers ..... Panel and Participants

**Project Description:** The Huey P. Long Widening Project consists of widening the existing main bridge truss spans and constructing new Eastbank and Westbank Approaches. The Huey P. Long Bridge is one of the three primary Mississippi River crossings in the Greater New Orleans area and is located in Jefferson Parish. The bridge carries both rail and highway traffic across the Mississippi River and is the only river rail crossing south of Baton Rouge.

The project will be bid as three different contracts:

- (1) Main Bridge Widening – Substructure
- (2) Main Bridge Widening Superstructure and Approaches
- (3) Huey P. Long Widening – Railroad Modifications

The first contract will be bid this summer/fall 2005 and the other contracts in 2006. The purpose of this Informational Meeting is to mainly discuss the scope of this first contract and to give a broader view on the status of the other future contracts.

**Contacts:** For pre-meeting questions please contact Juan Murillo (LTM) at (225) 906-1424 or Bruce Peterson (Modjeski and Masters) at (504) 524-4344. Additional information may be found on the TIMED Program website at [www.timedla.com](http://www.timedla.com).
